THE PROCESS OF WHITENING

In Office whitening is very easy. In just 30-60 minutes your teeth can get significantly whiter. Please be aware this is a simple explanation, in case any doubt please contact us.

CONSULT:

It's required by law just to do consult before the whitening (don't worry consult is free).

STRONG CHEMICALS:

The whitening chemicals are very strong. That is why we put a barrier on all your gums to protect them from getting burned by the whitening chemicals. It is important to try to stay still during the white-

ROUNDS VS SENSITIVITY:

Each round of whitening = whiter teeth
Each round of whitening = more sensitive teeth
So you choose how many rounds. We recommend no more than two to start.

If you feel pain – just let our assistant know.

IF GET CHEMICAL BURN:

If you do get "burned" -> you might have white spot that stings a little bit on gums. The soreness is similar if you bit your lip – just a little sore. The white spot will go way in 3-4 days. It is pretty rare this happens but we do hundreds of whitening's each month so it does happen every once in a while.

Feel free to watch our video that goes into more details about the procedure or go to our website where we have a lot more instructions. We also have additional post op instructions for all your appointments. We are excited to help you get your new smile!

IF YOU HAVE ANY QUESTIONS OR NEED TO TALK TO US, DO NOT HESITATE TO CALL US, WRITE TO US ON SOCIAL MEDIA, OR EMAIL US AND WE WILL GLADLY HELP YOU.
